Information, Terms, Etc.

GENERAL TERMS—Cash with Order. We pay delivery charges on all orders of \$2.50 or more, to any point in the United States, unless otherwise stated in catalog. **ON ORDERS OF LESS THAN \$2.50, PLEASE INCLUDE 35c TO COVER COSTS OF POSTAGE, PACKING AND HANDLING.**

Canadian Customers must secure labels from Inspector of Plant Products in Canada; also please add 10% additional to order to cover higher shipping costs.

METHOD OF SHIPPING—All plants are carefully wrapped and packed. Shipment is made the best way. Small orders are sent by Parcel Post, large orders by Prepaid Express. If you are unable to receive orders by Express, please advise when placing your order.

SPECIAL SERVICES—Either **Special Handling** or **Special Delivery** may save a delay of one to several days, which would mean very much in the growth of your plants. If either service is desired, please include remittance to cover and mark order thus. On orders of less than \$5.00, the charges are usually 25c for **Special Handling** and 45c for **Special Delivery**.

Air Parcel Post is very satisfactory, but expensive. If this method of transportation is desired, please include enough in your remittance to cover cost of the additional charges. Shipment made Air Express FOB if desired.

WE DO NOT SUBSTITUTE WITHOUT PERMISSION. If we may substitute, please indicate on order and give second choice if possible.

GUARANTEE—We Guarantee Satisfaction—If you are not pleased with your order, or if it reaches you in poor condition, please advise at once, and if possible, a replacement will be sent to you. If not your money will be refunded. Should there be a mistake in your order, advise promptly, we will do our best to correct it. No claims will be given consideration if made more than 10 days after receipt of your package.

ALL PLANTS LISTED IN THIS CATALOG ARE YOUNG POTTED PLANTS, IN A HEALTHY GROWING CONDITION, AND ARE SHIPPED TO YOU IN THE SOIL IN WHICH THEY WERE GROWN, UNLESS STATED OTHERWISE.

Because of the many conditions affecting plant growth, we will make no warranty, express or implied, as to the productiveness of plants, bulbs or seeds listed herein, and we will in no case be liable for more than the original purchase price.

Many of these plants are produced from seed and because of some variance in all flower seed, occasionally a plant may grow a little different than noted in description. Plants propagated from cuttings should be 100% true.

We watch weather conditions and do not ship during periods of extreme weather.

ALL ORDERS PROMPTLY ACKNOWLEDGED if shipment cannot be made within the next few days.

AN INVITATION

You are most welcome at our greenhouses at all times. Hours, during the Spring months are 7:30 a.m. to 6:00 p.m. every day except Sunday. The rest of the year the hours are 8:00 a.m. to 5:00 p.m. every day except Sunday. Closed all day on Sundays, except by appointment.

Perennials

All Perennials Unless Otherwise Stated Are Young Potted Plants

AVAILABLE APRIL 1ST TO JUNE 1ST

Aquilegia-Columbine

PA-1. Columbines are beautiful spring blooming plants of graceful, airy habit; highly prized for the border and cutting. We offer **Mrs. Scott Elliott's Strain** which has large flowers with long spurs in a complete color range.

25c each; 6 for \$1.40; 12 for \$2.50

DELPHINIUMS

They produce tall, slender, graceful spikes of large well formed flowers which make them ideal for tall borders, backgrounds, prize beds or cutting. The plants will grow 4 to 5 feet tall. All the varieties listed below are **GIANT PACIFIC HYBRIDS**, outstanding mildew resisting Delphiniums, which will bloom the first year if proper care is given.

PD-1 BLACK KNIGHT — Deep midnight violet. The darkest of them all.

PD-2 SUMMER SKIES—Light blue with an attractively contrasting white bee.

PD-3 KING ARTHUR—Exceptionally large royal violet flowers with prominent white bee.

PD-4 BLUE BIRD—Clearest of medium blues with a dark bee.

PD-5 GALAHAD—The finest clear white Delphinium. Large double flowers on long closely set spikes.

PD-6 GUINEVERE—Light pinkish lavender with a white bee.

25c each; 6 for \$1.40; 12 for \$2.50

PPD-7 ASTOLAT (Pink Delphinium)—The flowers vary in shade from pale blush through all the shades of lilac pink to deep raspberry rose; with large fawn, black or brown bees for contrast.

35c each; 3 for \$1.00

SPECIAL OFFER SP-1—One each of the 7 Types of Delphinium for \$1.65

PYRETHRUM

(PAINTED DAISY)

PP-1 Showy daisy-like flowers in shades of rose, pink, and red are produced in May and June. They are wonderful as cut flowers and the fern like foliage makes the plants attractive even when they are not in bloom. Grow them in rich soil in a fairly sunny location.

25c each; 6 for \$1.40; 12 for \$2.50

LIATRIS

The sturdy long spikes of this flower are excellent for cutting or background display in the late summer border. Liatris are among the hardiest and most easily grown perennial because of their ability to withstand hot dry weather. They bloom in late July and August at a time when color is needed and lacking in the border or garden. We offer blooming size roots of the two choicest forms.

PL-1 *L. pycnostachya* (Kansas Gayfeather)—Tall 4 to 5 foot spike of purple flowers.

35c each; 3 for \$1.00

PLS-1—Seed of *Liatris pycnostachya* for 25c per packet.

PL-2 *L. scariosa alba*—A snowy white form growing 2 to 4 feet high.

45c each; 3 for \$1.20

Gypsophila

(Baby's Breath)

PG-1 **BRISTOL FAIRY** — Sensational double flowering Baby's Breath. Large florets in airy panicles make it ideal for cutting. Blooms almost all summer from early June until frost. True grafted double flowering variety which will bloom heavily the first year. 60c each.

Thermopsis Caroliniana

PT-1 Carolinian Lupine of Garden Literature

Tall yellow pea shaped flowers on lupine like spikes about 4 feet high. It is perfect for a spot of color in the perennial garden or border in June after the Iris are gone. The plant is an ideal one for a busy gardener as it requires no spraying or cultivating; just an occasional weeding. It has clean foliage on straight tall pliable stalks with a very sturdy root system which is non spreading. Established clumps that are 4 or 5 years old will send up many spikes of flowers which are fine for arranging with blue flowers. A must-have background plant for the garden. We offer sturdy field grown roots which will bloom some this year and well next.

35c each; 3 for \$1.00

BLEEDING HEART

PB-1

(Dicentra Spectabilis)

True old fashioned variety with lovely pink sprays like your Grandmother knew. Blooms in May or June and does well in either semi-shade or sun. Large 3 to 5 eye clumps. 75c each; 3 for \$2.00.

HARDY CHRYSANTHEMUMS

Hardy Garden Chrysanthemums are among the easiest of all hardy plants to grow. They will tolerate considerable neglect and still give some bloom, but to have Chrysanthemums at their best, they should be given good culture. A culture sheet is sent with each order.

All plants listed here are healthy young potted plants which will bloom for you this fall. We give the approximate period for blooming. Starred varieties were most popular in our display this past season.

D—Double; SD—Semi-Double; S—Single.

E—Early blooming (before Sept. 15).

M—Blooming Sept. 15 to Sept. 30.

L—Blooming early October.

NEW UNIVERSITY OF NEBRASKA CARNATION FLOWERED CHRYSANTHEMUMS

The notched and lacinated petals have the form and appearance of florists' carnations. The early blooming and long lasting flowers produced are 2 to 3 inches in diameter. Dense foliage gives an impression of compactness.

YC-162 **PATHFINDER** (U.N. '53) — Non-fading bright clear yellow flowers are produced on windfirm plants with dense green foliage; very uniform and a row will make a rather formal low hedge. Stems terminate in clusters of 5-10 blooms. Petals notched and lacinated.

BC-163 **PLAINSMAN** (U.N. '53) — Slightly flattened rusty bronze flowers in clusters of 3-5 flowers. Windfirm plants with gray green foliage. Very double with petals notched and lacinated.

75c each

Tuberous Rooted Begonias

BT-11

These Double Flowering Tuberous Begonias are highly prized as pot plants for house culture during spring and early summer or set in the garden in a semi-shady location where they will produce a continuous display of flowers until late fall. Start bulbs in pots in sandy loose soil with the top of the bulb level with the soil line. In fall dry up and store over winter in damp peat moss. We offer the following colors: Red, Pink, Yellow, Copper and Salmon or Mixed—**35c each; 3 for \$1.00 (Large Size Bulbs)**

GLOXINIAS

BG-12

The Gloxinia bulb makes a magnificent pot plant for summer and winter blooming. Showy large open inverted bell shaped flowers are borne profusely above the velvety green foliage. Start bulbs in pots in a sandy loose soil with the top of bulb level with the soil line. Culture is the same as for violets. We offer the following varieties.

BG-1 **EMPEROR FREDERIC**—Scarlet bordered white.

BG-2 **EMPEROR WILLIAM**—Violet bordered white.

BG-3 **ETOILE de FEU**—Pure scarlet.

BG-4 **MONT BLANC**—Pure white.

Top Size Bulbs—40c each; 4 for \$1.45

SAINTPAULIAS

Snow Prince

The African Violet has become America's favorite for the home and office because of its compact growth and free blooming habit. It blooms almost continuously when proper care is given.

Keep them in a temperature of not less than 65 or 70 degrees Fahrenheit in a well ventilated room without a draft. Give as much light as the leaves will take without burning. If too little light is given the plants will not grow or bloom. However, the plants should never be exposed to sunlight when the foliage is wet. When watering, use water of room temperature and water when the surface of the soil feels dry to the touch. Do not allow plants to stand in water for a long period of time. WIK-FED

pots may be used. Established plants should be fed with a good well balanced fertilizer (we recommend Plant Marvel) about once every other month. Be careful not to over fertilize which can ruin your plants.

We recommend a potting mixture made up of 2 parts dirt, 2 parts leaf mold or peat, 1 part sand and 1 part Terra Lite (Vermiculite).

Sodium Selenate placed in the soil will protect your plants against Cyclamen Mite and other insects. (See page 22 for Kapsulate). In using Sodium Selenate use carefully and according to instructions.

NOTICE: All of our Violet plants are shipped in either 2¼ or 3 inch pots, and are generally in bud or bloom when shipped. Due to danger of freezing, no violets will be shipped during the months of December, January and February. Orders received during these months are acknowledged and booked for shipment in April or as soon as weather permits. Violets are shipped during the months of November and March according to weather conditions.

ON ALL ORDERS FOR VIOLETS PLEASE ENCLOSE 25c FOR SPECIAL HANDLING WHICH WE HIGHLY RECOMMEND TO HELP INSURE SAFER ARRIVAL OF YOUR PLANTS.

NOTE: By girl foliage we mean a scalloped leaf which has a white spot of varying size at the base of the leaf where the petiole joins the leaf.

TERRA-LITE aids development of Seedlings, Root-cuttings and Plants at all stages of growth. It helps more seeds germinate ... lightens heavy soil ... gives body to light soil ... unequalled as a mulch ... keeps stored bulbs firm and plump ... aids denser growth in new lawns. Absorbs moisture and releases it when plant needs it.

Smart growers get their plants off to a fast, sturdy start with TERRA-LITE. What's more, they keep those same plants rolling right along through the growing season, with this same fabulous plant aid. When transplanting or putting in new garden stock they mix a liberal amount of TERRA-LITE with the earth around the plant for ideal soil and moisture growing conditions.
